Northern California
CMC Quarterly Regional Roundtable

Wednesday, October 7, 2015 | 10am-1pm

Location: Owens Corning—Santa Clara, CA

Roundtable Sponsor:
Pacific Diversified Insurance Agency (http://www.pdins.com)

CMC roundtables are quarterly gatherings for the state's metalworking industry:

- ✓ Networking with All Sectors of the Metals Industry: Expand your knowledge about the solutions being implemented on workforce, energy, safety, materials management, market conditions and industry practices.
- ✓ Made In California Initiative: Senator Wieckowski launched the initiative to bolster manufacturing in California. He is seeking feedback to drive decision making, funding choices, and regulatory actions.
- ✓ Regulations: Learn about the latest compliance and enforcement activities impacting the metals industry.
  - Local Environmental Group Activity Increases: Community for a Better Environment (CBE) has been actively and publicly scrutinizing metalworking facilities on traffic, odor, storm water, and pollution. Learn about this activity and how we will organize to defend ourselves.
  - Report: End of 2015 Legislative Session: California's legislative session ends on September 11. Learn which bills have advanced to the Governor and what we can do to impact his decisions.
  - Workers Compensation: California's metalworking industry has seen fluctuations in the workers comp market. Received an update on the market conditions and regulatory impacts.
- ✓ Tour of Owens Corning: Attendees will get a special tour of this state-of-the-art fiberglass manufacturing facility.

State Senator
Bob Wieckowski (D)

SPECIAL GUEST:

There are only 40 state Senators representing the entire state of California. Senator Bob Wieckowski (D) was elected in 2014 to represent Alameda County and Santa Clara County, which includes the cities of San Jose, Hayward, Union City, Santa Clara, Fremont, Castro Valley, and Newark. Bob previously served as Mayor of Fremont, as a state Assemblymember (2010-2014), and currently serves as Chairman on the powerful Senate Environmental Quality (EQ) Committee. He also launched the Made in California Jobs Initiative to expand California manufacturing. We look forward to seeing you on October 7 in Santa Clara.
