Next Generation Rail Supply Chain Forum

A Business Opportunity for Manufacturers

Connecting Rail Industry OEMs with New Suppliers

- *Diversify your Business in a New Industry*
- *Build the Next Generation of Railcars*
- *Become a Supplier to the Rail Industry*

Date: February 8, 2012

Location: Woodlake Hotel (formerly Radisson Hotel)
Sacramento, CA

REGISTER

This unique one-day complimentary forum is designed to connect capable and interested traditional and non-traditional rail manufacturers with OEMs who will build the Next Generation of passenger railcars and locomotives. The goal of the project is to have 100% domestic content.

Manufacturers will have an opportunity for one-on-one discussions with OEMs, take part in panel discussions and attend product and component break-out sessions.

Contributors to the Event:

- Railcar builders and associated OEMs
- Department of Transportation (DOT)
- Department of Commerce (DOC)/NIST Manufacturing Extension Partnership (MEP)
- CALTRANS

Rail Manufacturers and Suppliers committed to working with U.S. suppliers:

- Alstom
- American Railcar Industries
- Bombardier
- CAF USA
- GE Transportation
- Hyundai Rotem USA
- Kawasaki Rail Car
- Lockheed Martin
- National Railway Equipment Company
- Nippon-Sharyo Rotem
- Siemens
- Stadler Rail
- Talgo
- U.S. Railcar Company

And more...
