@ Hilton Garden Inn San Diego/Rancho Bernardo

17240 Bernardo Center Drive | San Diego, California, 92128

Roundtable Sponsor: [Champion Risk & Insurance Services](#)

**About CMC Roundtables:** Established in 1972, the [California Metals Coalition \(CMC\)](#) is a statewide trade association with hundreds of members representing nearly all sectors of California’s metalworking industry. CMC meets regionally every quarter to exchange information on the most important issues currently impacting California’s metal businesses.

### About November 2nd Dinner Meeting:

Regulatory issues commonly seen in the Bay Area and Los Angeles County have migrated south. The San Diego Area is in the middle of major changes that will **impact your metal business**.

In 2021, AB 423 restructured the **San Diego Air Pollution Control District**. The 11-person governing board is now full-time. SDAPCD is the only local air district with 3 board members from the public—including one environmental justice advocate. New, stringent rules for metal facilities are being proposed.

In 2023, the City of San Diego Planning Commission received pressure to designate light manufacturing, heavy manufacturing and metal recyclers as **“harmful.”** If enacted, this would change permitting and zoning.

Currently, at the state level, metal facilities in San Diego are facing a phase out of internal combustion engine **forklifts** (proposed start: 2026); Cal-OSHA has proposed a new **indoor heat rule** with an 82 degree threshold; AB 2188’s **cannabis** testing law starts on January 1, 2024 and requires employers to demonstrate that the worker was impaired before taking employment actions; and **much more**.

### The Value of Information and Preparation:

CMC Executive Director **James Simonelli** brings 26 years of experience to the metals sector. Join us for dinner, listen to Mr. Simonelli, and arm your metal company with solid information and strategies!
