

FOR IMMEDIATE RELEASE

True-Tech Receives Lam Research 2016 Supplier Excellence Award

Annual Recognition Program Acknowledges True-Tech's Exemplary Capacity Readiness and Responsiveness

FREMONT, Calif., Aug. 23, 2016— True-Tech has been recognized as one of ten companies receiving a 2016 Supplier Excellence Award from [Lam Research Corp.](#) (NASDAQ: LRCX), a major global supplier of innovative wafer fabrication equipment and services to the semiconductor industry. The awards, presented annually, acknowledge their commitment to exceeding performance standards. True-Tech earned Lam's Supplier Excellence Award for exemplary Capacity Readiness and Responsiveness.

"True-Tech Corporation is a recognized industry leader providing precision, process critical machined components and assemblies supporting the semiconductor capital equipment industry," said Doug Hill, President & CEO of True-Tech Corporation. "True-Tech Corporation has a twenty-two year relationship with Lam Research and is honored to be recognized for supplier excellence, as this represents teamwork, innovative thinking, and a combined effort in the relentless pursuit of world-class performance."

The Lam Research Supplier Excellence Awards were announced on August 22 at the company's Supplier Day, during which Lam Research focuses on enhancing collaboration and renewing opportunities for mutual success with its customers and suppliers. Executives from suppliers around the world attended the event, and True-Tech was among the companies honored for its achievements.

"We applaud the contributions of True-Tech as one of Lam's preferred suppliers, and appreciate the important role they play in delivering industry-leading products and services to our customers," said Tim Archer, chief operating officer, Lam Research. "We are pleased to present True-Tech with a Lam Research Supplier Excellence Award for Capacity Readiness and Responsiveness and we look forward to continuing our success together."

About True-Tech

True-Tech Corporation is a contract manufacturing firm located in Fremont, California, for the past 30 years. True-Tech specializes in machining and assembly of critical components for the semiconductor equipment industry. The machined components that True-Tech produces are used in equipment that manufacture semi-conductors used in most of today's high-tech devices. If you have a cell phone, drive a car, watch television or fly on an airliner, most likely the components were made with equipment that includes parts made by True-Tech.

Since 1994 we have been committed to helping our customers maximize their potential and achieve their goals by reducing lead times, improving quality and reducing cost. High quality and customer service set True-Tech apart from all the rest!
