

CMC Member Benefit:

Mapistry Environmental Compliance Platform (ECP)

Leading California manufacturers utilize powerful software to make their environmental compliance team more effective and efficient.

As a CMC member, you have free access to Mapistry's Environmental Compliance Platform (ECP). The ECP starts with centralized files, record keeping, tasks, and automated reminders. It is enhanced by Mapistry's mapping tools, which can be used for storm water, chemical inventory, hazardous waste, evacuation routes, and much more. Permits, plans, reports, field inspections, emissions data, and corrective actions are conveniently in one place. And for those interested in a specific "add-on" Mapistry suite (*see below*), CMC members receive a deep discount.

Mapistry Technology Solutions			
	Product	Benefit	
Base	Mapistry Environmental Compliance Platform (ECP) with Support	Free for CMC Members	
Environmental Add-On Suites	Stormwater Sampling & Inspection Suite (ECP-SW)	Free for CMC Metal Industry Stormwater Group Participants	
	Stormwater SWPPP Builder Suite (ECP-SWPPP)	Free for CMC Members	
	SPCC Suite (ECP-SPCC)	 CMC Discounted Rate (Call for CMC for Pricing)	
	Hazardous Materials Tracking Suite (ECP-HM-INV)		
	Hazardous Materials Inspection Suite (ECP-HM-INSP)		
	Wastewater Sampling Suite (ECP-WW)		
	Air Emissions Tracking Suite II (ECP-AIR-EM2)		
	Air Emissions Tracking Suite I (ECP-AIR-EM1)		
Air Inspection Suite (ECP-AIR-INSP)			
Safety & Operations Add-On Suites		COVID-19 Response Plan Builder (COVID-PLAN)	Free for CMC Members
		COVID-19 Compliance Assurance Forms (COVID-INSP)	
		General Facility Inspection Suite (ECP-GSS or ECP-GMS)	CMC Discounted Rate (Call for CMC for Pricing)
	General Facility Log Suite (ECP-GFL)		

CMC Membership Benefit Overview - Mapistry Compliance Program

To further enhance CMC members environmental and safety programs, CMC and Mapistry, the leading provider of compliance software, have teamed up to provide a next-generation compliance software solution. Below is an overview for CMC members of the goals with the Mapistry platform, costs associated with each software suite, and additional details on each of the software products.

The Goals

Intelligent & Comprehensive Compliance

- Central hub for documents, analysis, and compliance assurance
- Data management and reporting to meet legal requirements
- Maintain clean environmental data that will protect facilities against legal and enforcement action

Company Insights in Real-Time

- Know about potential gaps and issues before they become bigger issues
- Analyze corrective actions, inspection completion, and permit limits instantly

Reduce the Risk and Costs of Compliance

- Reduce staff time on inspections, mapping, reporting, and monitoring
- Reduce spending on external consultants
- Reduce duplication by streamlining and centralizing

Empower Environmental, Safety & Operations Staff

- Lead the industry with innovative solutions
- Expand tools internally available for compliance
- Automate routine tasks to free up staff time for problem-solving

Overcome COVID-19 Challenges

- Connect staff and consultants working remotely
- Analyze challenges and solutions remotely
- Access to industry leading tools for COVID response

Software Details

Mapistry Environmental Compliance Platform (ECP) With Support

- Site & Organizational Compliance Dashboards
- Compliance Calendar
- Notifications
 - Weekly summary
- Tasks
- Record-keeping
- Organizational Analytics
 - Inspections, Corrective Actions, and Sampling Data
 - Filters - Inspection Type/Location/Tag
- Mapping Platform
 - Multiple Maps
 - Customizable Layers
 - Built-In GPS
 - Attribute Data with Hyperlinks
 - Imagery Import Capabilities
 - Base Aerial Imagery
- User Permissions
- Support (chat, email, phone, in-app guides, and resource center)

SPCC Compliance Suite (ECP-SPCC)

- Notifications
 - Inspection Completion
 - Corrective Action Assignment
- Inspection Forms - Simple and SP001 (web & mobile app)
 - Frequent
 - Comprehensive
- Bermed Area Releases
 - Tracking Forms
- SPCC Plans
 - SPCC Update Tracking
 - SPCC Plan Section in Records

Stormwater Compliance Suite (ECP-SW)

- Rain Log
- Notifications
 - Upcoming Rain Alert
 - Inspection Completion
 - Corrective Action Assignment
 - Benchmark Exceedance Alert
- Inspection Forms (web & mobile app)
 - Routine (monthly/quarterly)
 - Sample/Visual Observation
- Stormwater Plans
 - SWPPP Update Log
 - SWPPP Section in Records
- Sampling Data
 - Sample Data Upload
 - Sample Data Download
 - Exceedance Calculation
- Annual Evaluation
 - Annual Report Summary
 - Annual Evaluation Form

Stormwater Plan Builder (ECP-SWPPP)

- SWPPP builder
 - Step-by-step Questions
 - PDF output
- Available for CA IGP, NV MSGP, and EPA MSGP (NH, MA, NM, ID, DC, PR, USVI)

Stormwater BMP Inspection Suite (ECP-SW-BMP)

- Rain Log
- Notifications
 - Inspection Completion
 - Corrective Action Assignment
- Inspection Forms (web & mobile app)
 - Routine

Hazardous Materials Compliance Suite (ECP-HM-INV)

- Notifications
 - Inspection Completion
 - Corrective Action Assignment
- Inspection Forms (web & mobile app)
 - Satellite Accumulation Areas
 - Tanks
- Chemical Inventory
 - Map Data Integration with Specific Symbols
 - Exportable Reports (e.g. CERS)
- Hazardous Material & Contingency Plans
 - Hazardous Materials Business Plan (HMBP) update tracking
 - HMBP Section in Records

Hazardous Materials Inspection Suite (ECP-HM-INSP)

- Notifications
 - Inspection Completion
 - Corrective Action Assignment
- Inspection Forms (web & mobile app)
 - Satellite Accumulation Areas
 - Tanks

Wastewater Compliance Suite (ECP-WW)

- Notifications
 - Exceedance Alert
- Operator Forms/Logs
 - pH Calibration & Sample Measurement Log
 - Flow Rate & Volume Measurement Log
- Sampling Data
 - Sample Data Upload
 - Sample Data Download
 - Exceedance Calculation

Air Emissions Compliance Suite (ECP-AIR-EM)¹

- Notifications
 - Inspection Completion
 - Corrective Action Assignment
 - Permit Limit Exceedance
- Inspection Forms (web & mobile app)
 - Air equipment (e.g. baghouse) Inspections
 - Method 22

¹ECP-AIR-EM2 allows unlimited logged items and ECP-AIR-EM1 is capped at 20 logged items.

- General Visual Emissions
- Bay Area Air Quality Management District (BAAQMD) visual emissions & track out
- Material/Production/Quantity Logs
- Emissions Calculations
 - Rolling Averages & Sums
 - Calculated Emissions by Source, Pollutant, or Entire Facility
 - Customizable Emission Factors
- Analytics & Reporting
 - Customizable Graphs
 - Exceedance Calculations
 - Exportable Reports

Air Inspection Compliance Suite (ECP-AIR-INSP)

- Notifications
 - Inspection Completion
 - Corrective Action Assignment
- Inspection Forms (web & mobile app)
 - Air Equipment (e.g. baghouse or dust collector) Inspections
 - Method 22
 - General Visual Emissions
 - Bay Area Air Quality Management District (BAAQMD) Visual Emissions & Track Out

General Facility Inspection Suite (ECP-GSS or ECP-GMS)

- Notifications
 - Inspection Completion
 - Corrective Action Assignment
- Inspection Forms (web & mobile app)
 - Single Section Inspection Form (GSS)
 - Multiple Section Inspection Form (GMS)

General Facility Log Suite (ECP-GFL)

- Logging
 - Customizable data capture (text, number, date, signature, etc)
- Exportable report
