who will ?

What, and who, is the C. C. M. A.?

C.C.M.A. was organized in 1972 by a group of California Foundrymen to represent the Cast Metal Industry before the state government. The organization was incorporated as the California Cast Metals Association in 1974.

Who is speaking for our industry?

The C.C.M.A. will provide a team of witnesses to offer expert testimony before state legislative committees and regulatory bodies.

The association will also provide active support to the California Manufacturers Association in areas of mutual concern.

We need you!
.....you need us!

To provide an organization to represent metal casters in California in matters of common interest, including:

- Legislative Matters
- Coordination with Administrative Agencies
- Other Governmental Agencies
- Public Affairs

To operate an information exchange program on matters of interest to members.

To present a strong united stand to advance common goals and objectives of the members before the State Legislature and various agencies.

To operate study programs and surveys as needed.

How you can get involved...

Don't delay, send the membership application now.

The C.C.M.A. Annual Conference will be held in Sacramento each Spring. This includes luncheon and dinner receptions with specific legislators, and also an educational program on current topics of interest to the members by knowledgeable speakers.

The California Manufacturers Association's "Sacramento Report," a monthly multi-page newsletter presenting summaries of items of vital importance, is sent to each member regularly.
