Dear Bay Area Community,

We invite you to participate in our upcoming open houses/workshops to learn about the Air District's proposed amendments and additions to Regulation 6, which governs particulate matter emissions from various commercial and industrial operations.

These additions include four new proposed rules, and according to our estimates could impact several hundred facilities throughout the Bay Area.

At the open houses, you can hear about the proposed rules, review material, speak with Air District staff, ask questions, and offer comments.

These open houses also coincide with displays and presentations on the Air District's 2017 Clean Air Plan – *Spare the Air, Cool the Climate, A Blueprint for Clean Air and Climate Protection.*
