

Stakeholder Meeting: Stormwater Incentive Program for Industrial Facilities

November 22, 2017

Join the Los Angeles Department of Water and Power (LADWP) to learn about the proposed Stormwater Incentive Program for Industrial Facilities, currently under development, which will create a new water source for the city while providing environmental benefits to local communities.

LADWP is hosting a meeting to engage interested stakeholders such as facility managers, industry representatives, and environmental and community-based organizations, in a discussion of the proposed program that would provide incentives for industrial facilities to capture, treat and infiltrate and/or reuse runoff. The development of this program provides an opportunity to augment local water supplies and make the LA region more water secure in support of Mayor Eric Garcetti's Sustainable City pLAN.

Your voice is important. Please plan on attending the meeting.

Monday, December 4, 2017
11 a.m. – 12 p.m.
LADWP John Ferraro Building – A Level
111 N. Hope St., Los Angeles

Please **RSVP** to Sylvia Beltran to confirm attendance and reserve onsite parking.
